

A photograph of a custom-built power supply unit (PSU). The PSU is a rectangular metal box with a black fan grille on the front. It has several cables connected to it, including a multi-colored SATA cable, a black D-sub cable, and a white SATA-to-Molex adapter. Handwritten labels in black marker are visible on the top surface of the PSU. On the left side, there are two columns of labels: "GROUND 14-16" and "GND" above "50V". In the center, there is a large label "TULIP". To the right of "TULIP", there is a label "20 Pin" above "N". Further right, there is a label "250 W". At the bottom left, there is a small red LED indicator light.

1) Potenza: 350 watt
Attacco: 20 + 4 pin
Ventola: silenziosa
Connettori ide/pata e floppy.

Anche in blocco.
