Benches Siegmund Professional 750, 2400x1200S. 2B Plasma nitriding

Professional 750 welding tables are made of S355J2+N steel, plasma nitrided and coated. Due to its high load capacity, it is particularly suitable for machining heavy workpieces.

- The modular welding table simplifies handling and reduces machining time
- Modular design
- Perfectly flat surface
- Optimum protection against oxidation, scratches and welding spatter
- Equipped with standard legs, they can be loaded with approx. 1000 kg each
- Tables equipped with a diagonal grid have almost twice as much mounting possibilities
