E 'il primo Philips stereo OTL (Output Transformer Less) (1958) e utilizzabile solo con altoparlanti 800ohms,

L'amplificatore funziona ancora molto bene. Il suono è eccellente. Le casse e amplificatore mostrano segni di vecchiaia. faceva il pelo e contropelo a tanti "mostri" dell'epoca e non solo, per veri appassionati e intenditori

Nel complesso un grande classico vintage che ha bisogno di un po' di attenzione e una nuova casa.
