Con l'ausilio di Droni ad altissima tecnologia WPR Service Sr è in grado di realizzare riprese acrobatiche ad altissima risoluzione in qualsiasi campo e settore. Con Droni dedicati, dotati di termo skanner, oltre a realizzare riprese dall'alto è possibile monitorare lo stato di edifici, ponti e sottoponti autostrade e strade in genere, tralicci elettrici ad alta tensione, campi eolici e fotovoltaici, ripetitori telefonici, eventuali principi d'incendio in zone avverse e poco raggiungibili con automezzi, e quant'altro difficilmente raggiungibile dall'uomo. Grosso utilizzo dei nostri droni potrà essere individuato in disinfezione di grosse aree e campi e nel monitoraggio dall'alto di eventi come concerti, manifestazioni cittadine, grandi spiagge e stadi di calcio. Inoltre possono essere utilizzati per mini clip in caso di vendita di strutture immobiliari di pregio e panoramiche. Tutti i nostri Tecnici sono certificati allo scopo e vantano esperienza nel settore. Per contatti 3486539203
