

Mount Etna Tour Discover its exceptional level of volcanic activity

Luogo **Lombardia, Travacò Siccomario**
<https://www.annuncici.it/x-145802-z>

Mount Etna is an active volcano in the beautiful island of Sicily, which frequently erupts. Mount Etna is also considered one of the highest peaks in all of Italy and is surrounded by Parco dell' Etna- a national park. If you're lucky, you can even watch the volcano erupt and the lava flows down its sides from a safe distance. Chiudi
