

# vidaXL Fence segment, black, 95x(105-180)cm, WPC(SKU3053207) (130 EUR)

Luogo **Trentino-Alto Adige, Romeno**  
<https://www.annunci.it/x-171963-z>

This segment of the fence, made mainly of wood fibers and plastic, is economical. It can be used as a garden barrier or a fence for a residential area for privacy and security.

The garden fence has wood on one side and the usual patterns on the other, so you can choose the design that you like best. The segment made of wood-plastic composite is extremely durable, resistant to UV rays, high humidity and temperature fluctuations. Thanks to the upper profile made of aluminum, the fences can be firmly connected to each other, thereby ensuring that they will be even stronger and more impact-resistant.

Characterized by a modular design, the fence segment is easy to install and ensures that you can easily extend the fence. The pillars have three openings that will allow you to install the fence in different ways, for example, in a straight line (at an angle of 180 degrees), tilted to the right (at an angle of 90 degrees) or in the form of a T.

Note: this set consists of only 1 pole, so these details can only be used with a square-shaped WPC fence slab. Chiudi
