

Casa galleggiante, catamarano, casa sull'acqua, Houseboat, House on the water (195.000€)

Luogo Lazio, Roma
<https://www.annunci.it/x-188333-z>

We are a manufacturer of houseboats, catamarans, pontoon boats and floating piers.

LAKESTAR 1300 is a luxurious and innovative PARTY BOAT passenger catamaran. Its modern look gives it character and makes it look very exclusive and eye-catching. Made of high-quality materials, with an elegant interior, equipped with an illuminated minibar, toilet, air conditioning, heating and high-quality sound system with a subwoofer. The spacious deck and elegant sofas provide comfort and convenience on board. Attention to detail and well-thought-out solutions give a sense of comfort and ensure that the unit's equipment will meet all the needs of rest and relaxation on the water. The catamaran is perfect for organizing exclusive cruises on a daily basis and in the evenings it is a perfect place for special events such as birthdays, name days, hen parties, stag parties, corporate events or business meetings. LAKESTAR 1300 gives you a sense of uniqueness, and the time spent on it is one unforgettable experience that will remain in your memory for a long time.

Model "D" hull made of 4mm/5754 aluminum float. The shape of the floats and the processing ensure the load-bearing capacity of the structure and high stability, and thus - comfort of use (no inclination) and safety, and the cross-section provides a high initial buoyancy velocity and a very good weight ratio of capacity to capacity, which allows for use in shallow waters. The waters are permeable to water due to their low draft. Carefully shaped beaks minimize drag. The frame consists of aluminum or steel profiles.

WINDOWS AND DOORS:

The front double sliding door consists of double glazing in an aluminum frame. The windows are made of tinted plexiglass. The other doors are made of MDF.

BUILDING:

The deck is made of 15 mm thick waterproof plywood. 304 Stainless Steel Terrace Railing Up to 1.04 meters high. The walls and roof are a light structure made entirely of composite panels with the possibility of filling the space with polyurethane foam.

STANDARD EQUIPMENT:

TANKS:

- clean water 500 liters

- feces 500 liters

BATHROOM:

mirror, sink with cabinet and battery, electric toilet with macerator

INVERTERS / TRANSDUCERS:

12V to 230V - 3000W/9000

BAR:

Backlight with LED strips, sink with battery, 230V socket

RUBBER FENDER

STEERING WHEEL:

Meter - water, faeces, steering wheel, voltage indicator, light switch, horn, mp3 radio,

Cigarette lighter + USB

ANCHORS:

6 pcs. helmsman's chair

RAILS:

straight, stainless steel 304, diameter 40, height 1.04 m

BATTERIES:

4 x 250AH AGM / service
