A GUIDE TO WORLDWIDE COWRIES 2ND REVISED AND ENLARGED EDITION
-----NUOVO-----

Opera magistrale che copre le 207 specie, 110 sottospecie e 80 forme e varianti. Gli autori tentano di seguire una rotta ragionevole tra i lumpers e gli splitter. Il testo (che presenta biologiche categorie sistematiche, dati identificativi, mappe, ecc.) Occupa 130 pagine, ma le tavole a colori formano il nucleo del libro. Mostrano 3.040 fotografie delle conchiglie di tutte le categorie sistematiche, nonché alcuni dipinti di animali vivi. Le 12 tavole monocromatiche sono dedicate alla ricostruzione di conchiglie fossili.

By Lorenz Felix, Hubert Alex (Autori)
