Litfiba Eneide di Krypton - 1983 - Rarità.

An artistic masterpiece by Litfiba, dated 1983 and almost impossible to find.

After the band's final break-up, the value of the vinyl in question has risen exponentially, not that it wasn't also previously, given the very few original pressings on the market.

Almost entirely instrumental, it was conceived and composed by the band on commission from Krypton,

In order to use the songs on the record not only as a sound medium, but also as an integral part of their visual language of the film, the story in the film was in fact sketched mainly on the use of glass lenses and square camera shots in the scenes. In one of the scenes, a square Piero is mentioned during the show, there were some jokes.

The LP features several sound episodes, some interconnected and often repeated, almost entirely constructed by Antonio "Azzù" Zappalà's keyboards and Gianni Maroccolo's bass. All the songs are instrumental, except for "racconto di Enea", in which elù recites some verses from the Aeneid.

The first edition of this work was released in 1983.

The album was specially composed by the group to serve as the soundtrack to the theatrical performance of Virgil's Aeneid, staged by the Florentine theatre company Krypton. Chiudi
