Nel cuore di Alpignano, a due passi dai servizi ed inserito in una palazzina di fine anni Cinquanta, l'appartamento al piano rialzato gode di doppia esposizione e di una buona disposizione interna. L'accesso ai locali avviene tramite il disimpegno che collega tutte le aree della casa. Il soggiorno con cucina è ampio ed esposto a sud con affaccio sulla piazza principale del paese. La camera matrimoniale conserva la generosa metratura delle case di una volta, ed affaccia tramite balconcino sul cortile interno, che garantisce la giusta privacy. Il bagno è finestrato e con vasca da bagno, ed è stato separato dal ripostiglio, adibito ad uso lavanderia. Gli infissi sono in alluminio con doppio vetro e l'aggiunta di serrande in ghisa e inferriate del lato cortile garantiscono la sicurezza che richiede un piano rialzato. E' stato installato un addolcitore per l'acqua corrente di tutta la casa. Il riscaldamento è centralizzato con termovalvole e le spese di gestione sono contenute. Completa la soluzione la cantina di pertinenza.
