I always wanted to build a Full Metal guitar.
This Plastic-Free guitar has a spectacular olive wood body, burned, and finished with olive oil, maple neck, rosewood fretboard, brushed aluminium pickguard, metal charcoal tele>Like every single instrument made by me, It's a unique, non repeatable piece of art made in workshop.

Note that the guitar will be shipped with fast shipping the 12th of September, as I'm outside for work before.

Thanks everybody in advance! Chiudi
