Monographic study of one of the most famous Russian architects of the 20th century, showing the complete works of the master. The main goal is to widely cover the work of Konstantin Melnikov to show the maximum number of subjects, to acquaint the public with both the most important works of his and

those that are less known, but nevertheless had a great impact on modern architecture.

More than 200 elements exhibited for the first time: Sketches, Plans, Paintings, Archival Documents, Personal Belongings, etc. A special place in the exhibition is occupied by models of unrealized projects (exhibition pavilions, work clubs, garages, office buildings and kiosks).

Without a doubt, the best sample of one of the most prominent representatives of the Russian school of architecture.

As a result of meticulous research work, this catalog was born, presenting for the first time a complete description of the master's archive. With more than 500 illustrations that include articles by eleven experts on the life and projects of Konstantin Melnikov.
