

SounDigger Guitars - Powerslide - Skate Guitar - Chitarra elettrica - Italia - 2023 (70 EU

Luogo **Liguria, Imperia**
<https://www.annunci.it/x-291969-z>

Look at it, isn't it just crazy? Yes it is.

This guitar has a maple skateboard deck, burned, stained and finished with oil, maple neck and fretboard, has a bridge made from a wooden dresser handle, a bronze control plate made from a vintage handle, volume and tone, three-way toggle switch, metal knobs, two Roswell P90 pickups, a buzzstop that is also a bottle opener (Working, you can literally crack a beer through it with no damage on the guitar setup)

Like all the instruments built in my workshop, it is unique and unrepeatable

Note that the instrument will be shipped the 12th of September as I am away for work at the moment

Here is the link to a small demo of the instrument
