

Profoto Air TTL 1000 (1.500 EUR)

Luogo **Campania, Caserta**  
<https://www.annunci.it/x-325487-z>

D2 Duo Kit 1000/1000 AirTTL  
Overview  
Product number  
330179

Popular applications  
Portrait, Sports and action, Still life

Recommended for  
Studio and high volume photography

Flash  
Max energy  
1,000 Ws

Energy range  
10 f-stops (1.0-1,000 Ws)

Energy control increments  
0.1 f-stops

|                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                           |                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                             |                                                                                                                                                                                                                                                             |

---

Freeze mode: 1/600 s (1,000 Ws) - 1/12,200 s (2 Ws)

Flash duration t0.5

Normal mode: 1/1,600 s (1,000 Ws) - 1/11,000 s (2 Ws)

Freeze mode: 1/1,600 s (1,000 Ws) - 1/50,000 s (2 Ws)

F-stop @ 2m / 100 ISO

64 8/10 with Magnum Reflector

Beam angle

No data

Field angle

No data

Color temp stability

±150 K over range. ±20 K flash to flash

Continuous light

Lamp type

Halogen (GY 6.35)

Max luminous flux (lumen)

No data

Max illuminance @ 1meter (lux)

No data

Color temperature

3200 K

Beam angle

No data

Field angle

No data

Max power

300 W

---

Wireless connectivity  
Built-in connectivity  
Profoto AirTTL

Frequency band  
2.4 GHz (2404 to 2479.3 MHz)

Supported Air functions  
Sync and remote control (Air 1 and Air 2)

Number of Air channels  
100 (1-100)

Control flash power using absolute values  
Yes (with Air2 mode compatible remote)

Number of groups per Air Channel  
6, (TTL operation: 3 (A-C), manual operation: 3 (D-F))

Operating range  
Normal sync and remote control 0.5-100 m (1.5-330 ft)

Connectors  
Sync  
1 3.5 mm socket (mini-phone)

Other  
USB Micro

Powering  
Power supply  
100-127V/200-240V, 50/60 Hz (nominal)

Mains fuse requirement  
6A/230V, 10A/120V

Other  
Firmware update  
via USB Micro

---

Operation temperature  
+10 C to +35 C (-10 C to +50 C with reduced performance)

Storage temperature  
Store in normal indoor conditions

Photocell/IR-slave  
Si

Measurements

Width  
13 cm / 5.1 in

Length  
31 cm / 12.2 in

Height  
18 cm / 7.1 in

Weight  
3.4 kg / 7.5 lbs Chiudi
