## Philips - D8304 - BoomBox - MSHQ - 5 Speaker System - Registratore-lettore di casse

Luogo Piemonte, Verbania

https://www.annuncici.it/x-325909-z

This magnificent cassette recorder and player that I am presenting in this auction is a Philips brand model D8304.

It is a vintage boombox, its design dates back to the late 70s but its production began in the early 80s. The one I am presenting is from 1985, a fairly rare object as its aesthetic condition is nothing short of impeccable.

The boombox is equipped with an original shoulder strap with Philips writing.

Recently the stereo has undergone some ordinary and extraordinary maintenance, in fact in addition to having it done a general cleaning, all the gears have been changed and the antenna has been replaced. All this work was meticulously carried out by a professional who guaranteed the full functionality of the stereo.

Its dimensions are:

- 54 cm width;
- 14 cm depth;
- 35 cm height.

The object in question will be packaged very carefully, I will ship with the Italian post office, with the express delivery option, which means fast shipping both in Italy and abroad.

Since the conditions of the boombox are truly impeccable, excellent, there are very few of them around in this state, which makes this object a rarity and if you need to relaunch, spare no expense, DO NOT HESITATE.

Thanks and happy bidding everyone! Chiudi
