Precious and rare 35mm rangefinder camera. Technically it is in very good condition and works properly: the shutter works, the curtains are both good and the shutter speeds work; film transport works well; the double image is strong (good contrast); the viewfinder is ok. Furthermore, it is in excellent aesthetic condition (it has not suffered any knocks, it has no corrosion and the leather upholstery is perfect). The Canon 3.5-100mm lens is clean and unmarked, but has white streaks in transparency (in the central lens) and, therefore, should be considered a "bonus". The camera has not been used with film. Finally, the photos are part of the description. Insured and tracked shipping.

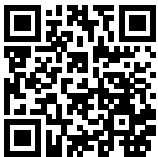

PLEASE ATTENTION: Shipping only to Europe. Chiudi
