Celebration of Peter Green, guitarist and ideologist in the very first incarnation of Fleetwood Mac, who died in 2020.

Among the protagonists of the entire concert we find first of all musicians who were part of Fleetwood Mac at different times: Jeremy Spencer, who was in the first lineup, right next to Green, Christine McVie, historic female voice from the 70s, Rick Vito , guitarist of the band from 1987 to 1991 after the departure of Lindsey Buckingham, Neil Finn of Crowded House, then John Mayall, one of the musicians who most influenced early Fleetwood Mac, Pete Townshend of the Who, Billy Gibbons of ZZ Top, David Gilmour , who brings his characteristic touch to the famous “Oh Well” and “Albatross”, the leader of Aerosmith Steven Tyler, Noel Gallagher and Jonny Lang, Kirk Hammett of Metallica, Bill Wyman, former bassist of the Rolling Stones and Zak Starkey, the son of Ringo Starr.
