Un pò di Storia: In 1988 the Memotime S.A. company was founded as a sub-brand for Corum. The company focused on nautical watches (Memosail), dive timers (Memodive) and chronographs (Memostart). Apparently the rights for the name Memosail have been taken over by Memotime.

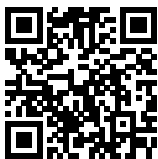

For a new series of yachttimer watches Memotime worked with Conseilray, a watch movement design and manufacturing consulting company, founded in 1977 and active throughout the 1980's and 1990's. Together Memotime and Conseilray developed the 883 regatta module in combination with either a Ronda-Harley 775 quartz or an ETA 2671 automatic movement.
