Raffaele de Leo, born in Taranto in 1970, divides his activity between music and artistic production.

Helping himself with new technologies, he tries to convey that artistic source that he has within himself and that now more than ever he is rediscovering in these years by creating modern paintings by relying on his digital skills.

He plays a lot using light and colours, a lot of originality and modernism, also recalling historical and theater characters, giving an always different final touch to each of his creations.

In his works he combines reality with fantasy he uses bold colours and glimpses of realistic places also combining cartoon characters, he loves to capture the scene giving each object and character a thousand shades

It is present in many private collections in ITALY and in EUROPE.
