

# Agfa Duoscan Scanner per pellicola (75 EUR)

Luogo **Marche, Urbino**  
<https://www.annunci.it/x-387870-z>

Agfa Duoscan professional scanner for 35mm, 120 negatives, slides and flat film. The scanner works on old PCs and also on Macs, rarely used and in very good condition. it is heavy because it is made with excellent materials and professional hardware components. Equipped with masks for scanning negatives, slides, 120 negatives and for optical benches. In addition to all this you can use it as a normal scanner. Also present is the original Agfa program for Mac and its drivers. To use it with Windows you need Windows XP and Vuescan. In the images above I have photographed the main specifications of the scanner in question. Equipped with 50-pin Centronics port, parallel port, SCSI selector, data and power cable. Chiudi
