Raffaele de leo, born in Taranto in 1970, divides his activity between music and artistic production. With the help of new technologies, he tries to convey that artistic source that he has within him and that now more than ever he is rediscovering in recent years by creating modern paintings by relying on his digital skills.

He plays a lot using light and colors, a lot of originality and modernism, also recalling historical and theater characters, giving an always different final touch to each of his creations,

In his works he combines reality with fantasy, he uses bold colors and glimpses of realistic places, also combining comic characters, he loves to capture the scene giving each object and character a thousand shades
