Raffaele de Leo, born in Taranto in 1970, divides his activity between music and artistic production. With the help of new technologies, he tries to convey that artistic source that he has within himself and that now more than ever he is rediscovering in recent years by creating modern paintings by relying on his digital skills.

He plays a lot using light and colours, a lot of originality and modernism, also recalling historical and theater characters, giving a final touch that is always different to each of his creations. In his works he combines reality with fantasy, he uses bold colours and glimpses of realistic places, also combining comic characters, he loves to capture the scene giving each object and character a thousand shades It is present in many private collections in ITALY and in EUROPE.
