In condizioni eccellenti e testato funzionante con le antenne estraibili.
Selettore e ricezione FM OK
Selettore MW e LW gira a vuoto senza far girare il dial
Il Tuning/battery non segna (ma non ho messo le batterie....)
Il selettore grosso SW gira da xx591 a xx999 sotto i 591 slitta.
Le luci si accendono, le antenne sono ok. Coperchio frontale mancante
Fu acquistato da m io padre negli anni 70 ed è sempre rimasto in famiglia

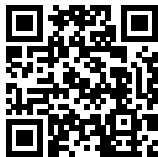

Excellent conditions and many functions have been tested with the extractable antennas.
FM selector and reception ok. The MW and LW selector slides and the dial does not turn, however it did turn a year ago when I tested it. The TUNING/BATTERY does not move however I did not put batteries in so it may be just that..
The big SW selector turns smoothly from xx591 to xx999, however below 591 it slips and the dial stops.
The lights turn on. There is no front cover and I am not sure if this model had one originally.
It was bought by my fater in the 70's and has remained in the family ever since. Chiudi
