

# KITE LINE SHUTTLE x riprese aeree (65 EUR)

Luogo

**Sicilia, Milazzo**

<https://www.annunciici.it/x-48319-z>

Carrellino 'ascensionale' accessorio per Go-pro, ma utilizzabile anche con altri tipi di mini-camera.

Per vederne il funzionamento basta ricopiare  
oppure digitare il titolo 'kite line shuttle' su you tube.

Si possono ottenere riprese aeree low cost ma di grande effetto, utilizzando un semplice aquilone monacavo oppure facendolo scorrere su un cavo fissato ad un punto elevato es. un edificio.

Per l'utilizzo è sufficiente stendere il cavo con una pendenza elevata (almeno compresa tra i 40° e i 70°) agganciarlo alle carrucole, e passarlo attorno alla puleggia piccola,

(è necessario avere pre-avvolto sul rocchetto grande una quantità di filo o lenza di lunghezza almeno uguale al cavo su cui scorre il carrellino e farla passare nella guida a 'stecca') poi tirando questo filo/lenza con es. un mulinello da pesca, il carrellino si 'arrampica' sul cavo portante.

Costruito artigianalmente in alluminio e materiale plastico, bulloneria inox, e carrucole boccolate in ottone.

Basta montare la videocamera al braccio basculante inferiore, che ne mantiene costante l'angolo di ripresa anche se la pendenza del cavo varia, ed otterrete riprese aeree ascensionali; per far scendere basta rilasciare la lenza che per gravità si auto-riavvolgerà al rocchetto del carrellino.

-Peso a vuoto 250 g.

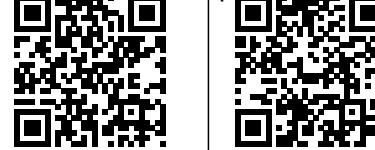

Cavo NON incluso.

Come da foto + spese di spedizione
