The GGS Lucky was produced by two ex former Salmoiraghi, their names were Gian Antonio Sommaruga and Carlo Gneccchi. In 1948 in Milan they started to produce the Lucky, a small Leica copy. The Lucky is a 35mm film made in only a few pieces. The camera is in really nice shape with the exception of a few minor marks here and there only sign of time on this rare and wonderful Italian camera. The lens is a Solar Anastigmat 50/3,2 and it's clean and clear with no marks at all. The focusing is smooth. The shutter works on fast speeds, slow speeds to fix. The camera comes with an original leather case with strap, the original spool and a frontal cap. Here is your opportunity to own a piece of history; a camera that was manufactured in very small numbers. Most of these are already in the hands of dealers or collectors. Nice example of an item no longer available. Great for your collection. Chiudi
