

Sansui - CA-3000 Preamplifier, BA-3000 Power amplifier - Set stereo (2.575 EUR)

Luogo Lombardia, Varese  
<https://www.annunci.it/x-553910-z>

I due oggetti presentati sono veramente speciali!r  
Nella loro vita ad oggi hanno avuto un solo proprietario, sono tenuti in maniera maniacale non presentano graffi sono veramente belli. r  
Del pre-amplificatore sono presenti i documenti originali compreso il "Factory data" su questo documento venivano dichiarati i valori di collaudo della apparecchiatura .... incredibile r  
Un altro aspetto che li rende speciali e che tutti i transistors presenti sul pre e sul finale sono originali.r  
Mentre sono stati cambiati su entrambi tutti i condensatori di filtraggio e disaccoppiamento r  
Che dire ..... due oggetti STUPENDI!!!!r  
Tralascio la specifiche delle due apparecchiature disponibili sul WEBr  
Le apparecchiature verranno spedite con due contenitori ed avranno l'assicurazione.r  
r  
r  
CA-3000 SPECS:r  
r  
Frequency response: 10Hz to 100kHzr  
Total harmonic distortion: 0.03%r  
Input sensitivity: 3mV (MM), 130mV (DIN), 130mV (line)r  
Signal to noise ratio: 70dB (MM), 90dB (DIN), 90dB (line)r  
Channel separation: 60dB (MM), 60dB (line)r  
Output: 130mV (line), 30mV (DIN), 1.3V (Pre out), 8V (Pre out Max)r

|                                                                                                                                                                                                                                                         |                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                          |                                                                                                                                                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                            |                                                                                                                                                                                                                                                            |
