

# Splendida stanza singola in Porta Romana (700 EUR)

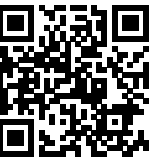

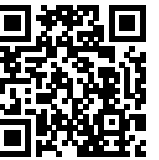

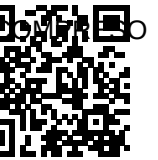

Luogo **Lombardia, Milano**  
<https://www.annunci.it/x-572027-z>

Splendida Stanza Singola in appartamento completamente ristrutturato!

???????? ZONA PORTA ROMANA:  
10/15 minuti da IULM, Bocconi, IED e NABA, 20 da Cattolica e Statale (sede via Festa del Perdono). A 50 metri a piedi dalla MM3 linea gialla fermata “Lodi Tibb”, autobus 90/91 a 100 metri.  
In zona sono presenti tutti i servizi: supermercati, farmacie, banche, ristoranti, palestra e negozi.  
Porta Romana è un quartiere tranquillo e sicuro in cui vivere. È una buona opzione per coloro che vogliono vivere l'atmosfera della città.

???? APPARTAMENTO: è stato completamente ristrutturato, dispone di due ampi bagni finestrati, lavanderia (asciugatrice, lavatrice) e ampia cucina/soggiorno, in una palazzina tranquilla.  
Tutti gli ambienti sono molto luminosi, dotati di arredi, infissi nuovi, tapparelle, zanzariere ed elettrodomestici di classe A (frigorifero, lavatrice, asciugatrice, forno, microonde, aspirapolvere).  
L'appartamento è composto da:  
? 2 suite singole molto spaziose con letto queen-size  
? 4 camere singole luminose e modernamente arredate  
? Cucina completamente attrezzata con forno, frigorifero, congelatore, stoviglie  
? Ampia sala da pranzo  
? 2 bagni completamente ristrutturati

|                                                                                                                                                                                                                     |                                                                                                                                                                                                                      |                                                                                                                                                                                                                      |                                                                                                                                                                                                                      |                                                                                                                                                                                                                       |                                                                                                                                                                                                                        |                                                                                                                                                                                                                        |                                                                                                                                                                                                                        |                                                                                                                                                                                                                        |                                                                                                                                                                                                                        |
