Il benessere del corpo e della mente è fondamentale per la buona conduzione delle nostre giornate. Lo stress e le scadenze possono provocarci conseguenze negative che danneggiano il nostro approccio a qualsiasi attività ed obiettivo della nostra giornata.

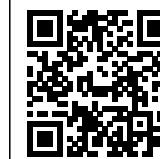

Oltre che alla classica meditazione, esistono altre tecniche per il relax di corpo e mente, come ad esempio i massaggi. L'operatore olistico è un facilitatore dell'equilibrio energetico, dell'evoluzione e della crescita personale che lavora con competenze pluridisciplinari ed approcci integrati attraverso l'uso di tecniche corporee, naturali, energetiche, artistiche e meditative; agevola il naturale processo di trasformazione e consapevolezza globale della persona.
