

Pioneer - SA-7300 - Amplificatore integrato a stato solido (6 EUR)

Luogo

Emilia-Romagna, Piacenza

<https://www.annuncici.it/x-584361-z>

DESCRIPTION:\r

\mathbf{r}

Hybrid IC circuitry employing dual positive and negative power supplies is incorporated in the power amplifier section of the SA-7300. All stages are directly coupled in the OCL circuit design to provide plenty of power at minimized distortion. Output is 35W + 35W in the range of 20Hz-20kHz at 8 ohms with both channels driven and 0.3% harmonic distortion.

\mathbf{r}

The equalizer amplifier also utilizes a dual positive and negative power supply and IC circuitry to assure RIAA deviation within $\pm 0.3\text{dB}$, while a maximum input of up to 200mV (at 1 kHz) can be easily handled (at 0.1% harmonic distortion).

\mathbf{r}

Both relay and electronic circuitry combine to safeguard valuable transistors and speakers in event of malfunction. This special protector circuit also performs a muting function to prevent annoying surge noise when the POWER switch is operated.\r

\hr

Advanced CR type tone controls and 2-stage direct coupled amplifier provide highly effective control operation. Regardless of the tone control settings, a flat frequency response can always be obtained by employing the TONE switch. This is convenient for checking cartridge and speaker tone, and evaluating listening room characteristics.\r

\mathbf{r}

The recording and playback jacks of the SA-7300 are provided for two tape decks, in addition to separate input and output switches. A manually convertible tape duplicator with limiting can be added if tape decks are available.

The clean, clutter-free, non-visual layout avoids confusion, error, unnecessary controls and icons. Modern serene styling is combined with one-glance operational ease.

SPECS:

Power output: 35 watts per channel into 8 Ω (stereo)

Frequency response: 10Hz to 50kHz

Total harmonic distortion: 0.3%\r
Damping factor: 25\r
Input sensitivity: 2.5mV (MM), 150mV (line)\r
Signal to noise ratio: 70dB (MM), 90dB (line)\r
Output: 150mV (line), 30mV (DIN)\r
Semiconductors: 4 x IC, 20 x transistors, 16 x diodes\r
Dimensions: 350 x 125 x 282mm\r
Weight: 7.5kg\r
Year: 1976 Chiudi
