The lot I am presenting today is a rare item in the condition in which it is presented, in fact the photos speak for themselves. The item is a very high-end Accuphase branded amplifier model E-204, the provenance of the vintage amplifier, it is part of my collection.\r

It was previously in the possession of my father who bought it in 1981.\r

It has recently been given a general inspection with a cleaning done by a professional.\r

The item will be meticulously packed so it will be protected AND the shipping will be fast and insured.\r

Please do not hesitate in the slightest to bid on it as it is truly a unique item of its kind and much sought after from the pioneering period.\r

Good auction to all.\r
