Capture from broadcast decks to SD and HD H.264 files! Now it's easy to distribute your client's H.264 video files to websites, YouTube™, iPhone™ and even iPad™ Blackmagic Design's H.264 Pro Recorder handles capture from all popular video formats so you can encode directly from professional broadcast decks! Only \$495 Professional Encoding H.264 Pro Recorder is for the industry professional who needs professional encoding from SDI, HDMI, analog component/composite and balanced audio! H.264 Pro Recorder includes Blackmagic Design's powerful Media Express for frame accurate deck control with EDL import! Media Express lets you encode on Mac and Windows! Highest Quality Video Capture H.264 Pro Recorder allows you to select between SDI, HDMI and analog component video inputs. You can select to take audio from the SDI, HDMI or stereo balanced analog audio input jacks. H.264 can be connected directly to HD or SD video sources because the SDI, HDMI and analog component inputs all switch between formats. This means you can capture from HDCAM, Digital Betacam, Betacam SP, DVD players and more! Maximum Flexibility! The perfect low cost way to capture from professional broadcast decks directly to SD and HD H.264 files! With new ways of delivering content to consumers, now it's easy to capture old or new programming content into the same file format used on the web, iPad™, iPod™, iPhone™, Apple TV™, YouTube™ and more! Capture directly from SDI, HDMI and component analog video with embedded SDI, HDMI and balanced analog audio inputs. RS-422 deck control is included with software for Mac and Windows! Preserve Archive Footage Old videotapes are delicate and have a limited life. With old videotapes deteriorating and decks that can play them getting rare, encoding video is the only way to preserve valuable footage! Use H.264 to archive old programming, news footage and other materials that might be on old videotape forma
